

restoriix™

NUTRIFII™
FIRST STEP THERAPY

Restoriix features a combination of zeolite, charcoal, and nutrient-dense superfoods that attracts and removes free radicals and unwanted substances, balances pH levels, and supports healthy immune function while bolstering the body's natural detoxification processes.*

Getting Back in Balance*

We live in a world that too often feels out of balance. Add constant stress from busy schedules with too much fast food, throw in environmental pollutants, mercury from dental fillings, preservatives in foods, toxins from plastics, cleaning agents, and poor air quality, and it's easy to see why our bodies may be suffering unhealthy consequences.*

All this toxicity may be causing your body's natural systems to function at less-than-optimal levels, and when your systems are under stress and out of balance, they can't work as efficiently. Consequently, you may suffer from low energy, weight gain or loss, and weakened immunity. So what can you do to combat these negative effects?*

Restoriix is a cleansing supplement that supports your body's normal detoxification processes to help you reach your peak balance potential. Using a combination of zeolite, charcoal, and nutrient-dense superfoods, Restoriix can help rid your body of unwanted toxins and restore balance that may have been lost.*

Restoriix—from A to Zeolite

Restoriix ingredients have been gathered from around the world and combined to create a cleansing supplement that works in synergy with your body to restore its natural balance and vitality.*

Zeolite

Zeolites are natural volcanic minerals that are mined in certain parts of the world. Created by a chemical reaction between ash from a volcano and salt from the nearby sea, zeolites are formed in the hardened lava over the course of thousands of years. Zeolite has a very unique structure consisting of large, vacant spaces that allow for free radicals to be attracted to it, then trapped and eliminated from the body.*

Thanks to its honeycomb-like structure, zeolite works at the cellular level to trap unwanted materials. And because it is one of the few negatively charged minerals in nature, zeolite acts as a magnet, drawing free radicals to it.¹ For centuries, powdered forms of specific zeolites have been used as traditional remedies throughout Asia to promote overall health and well being.*

Overall, zeolite is a good choice for:

- Supporting healthy immune function.*
- Helping the body remove free radicals and other unwanted substances.*
- Maintaining balanced pH levels in the body and boosting healthy alkalinity levels, which are essential for good health and immune support.² A body with proper alkaline levels contains high oxygen levels, which supports the body's natural defenses, as well as favoring the preservation of lean muscle mass, essentially slowing the aging process.*³

Chlorella

In addition to zeolite, Restoriix also contains chlorella, a pure green algae rich in chlorophyll that aids in processing oxygen, thus supporting the body's natural cleansing processes in key elimination systems such as the bowel, liver, and blood.*

Chlorella has the potential to support the natural detoxification processes by:*

- Supporting immune function.*
- Helping to digest food more efficiently.*
- Supporting healthy cholesterol and blood sugar levels already within normal range.*

Activated Charcoal of Willow Tree Bark

From the time that Hippocrates first cited its health-promoting properties, willow tree bark has been a valued ingredient used around the world for health and wellness. Activated charcoal made from willow tree bark, a part of the Restoriix formula, can bond to and carry thousands of times its own weight in toxins and other chemicals. Because of these properties, activated charcoal is a commonly used decontamination agent around the world.^{4,5}

Organic Spirulina

Spirulina, derived from fresh-water algae, provides protein, iron, vitamins, minerals, and many essential micronutrients often missing in the diet due to irregular eating habits, hectic lifestyle, or lack of proper dietary knowledge.*

Chia Seeds

An edible seed that comes from the deserts of southern Mexico, chia seeds are probably best known for their use in novelty planters called Chia Pets. However, throughout history, these small but mighty seeds have played an important part in health and nutrition. In pre-Columbian times, they were a main component of the Aztec and Mayan diets and were kept as survival rations for Aztec warriors.⁶ In today's society, chia seeds are gaining popularity, with health benefits similar to flax seeds. Chia is a very abundant source of omega-3 fatty acids and is high in antioxidants. Beyond that, chia seeds are also full of fiber and trace elements like calcium, phosphorous, manganese, copper, molybdenum, zinc, and more.*⁷

Chlorophyllin

One of the most powerful life-giving substances on the planet is chlorophyll. This is the pigment that gives green foods their color. Chlorophyll-rich foods have a very deep green color, and they are useful in building new blood cells and purifying the body. Chlorophyll also assists in oral hygiene and deodorization of the body.*

Ginger Root

Ginger is popular both for its flavor and health-supporting properties. A powerful antioxidant, ginger has been shown to improve blood circulation and has a long history of use for alleviating symptoms of gastrointestinal distress.*^{8,9}

Harmony in Health

Achieving a natural balance is essential for supporting your body and your health. Including Restoriix as part of your health and wellness routine will support your body's normal detoxification processes, helping you to get back in balance.*

Our Commitment to Excellence

We are committed to bringing the best health and wellness products to you by extensively researching modern nutritional science. The ARIIX 100% potency guarantee is the cornerstone of our quality, and we are dedicated to our mission to Unleash the Human Potential for Good.

Recommended use: Mix one scoop (3.9 grams) per day with water or juice, preferably 1 hour before meals. For more intense cleansing, take one scoop twice daily.

Keep out of reach of children.

If you are pregnant, nursing, or have a medical condition, consult a physician before using this product.

Warning: Due to the active nature of this product, consult a physician if you are taking prescription medications.

Allow two hours before or after taking any medications, since activated charcoal may interfere with the absorption of your medication.
