Beauty Boost

SLENDERIIZ

Beauty Boost can be added to PureNourish to create the flavor and nutrient combination you're looking for. Naturally orange-flavored Beauty Boost promotes healthy hair, skin and nails.*

Beauty Boost works on the premise that nothing is more beautiful than good health. Although it is formulated to address the specific nutritional needs of hair, skin and nails, your internal systems will also benefit from Beauty Boost's vitamins, minerals, and bioflavonoids from a variety of natural plant extracts.*

Beauty Boost's refreshing flavor comes from the mandarin orange and nutrient rich papaya. Each serving of Beauty Boost includes pure citrus bioflavonoids; Dermaval™, a proprietary blend of extracts from nine different superfoods, and Aquamin™, a multimineral seaweed extract that provides calcium, magnesium, and other minerals needed for vibrant skin and healthy hair. The formula is also rich in biotin, a complex B vitamin associated with stronger hair and nails.*,[1]

Slenderiiz is committed to the science of nutrition, and uses only the highest quality ingredients in its products. Beauty Boost contains no artificial colors, sweeteners or flavors. Our ingredients are soy-, gluten- and dairy-free, without trans-fats or GMO components. Beauty Boost works best mixed with PureNourish, an excellent protein supplement.

Directions for use: Store Beauty Boost in a cool, dry place until ready to drink. To prepare, mix one scoop with two scoops of PureNourish and 8 ounces of cold water. Shake vigorously to blend. For a creamier shake, use almond or coconut milk.

Good manufacturing practices are used to segregate ingredients in a facility that processes other products. These may contain peanuts, tree nuts, wheat (gluten), milk, soy, and/or eggs. If you are pregnant, nursing, or have a medical condition consult a health care professional before using this product.
