

# Supporting Vegan, Vegetarian & Gluten-Free Lifestyles

---

To help many of our clients who are embracing vegan, vegetarian, or gluten-free lifestyles, we've created this quick reference guide to help you know which of our products are right for you.

Many of our products are vegan, most are vegetarian, and all are gluten-free. We recommend always reviewing the product ingredients list on the label for the most up-to-date information.

## Vegan and Vegetarian Approved

---

PureNourish™

---

Power Boost™

---

Beauty Boost™

---

Xceler8™

---

Brightening Cream

## Vegan-ish\*

\*The following products contain all vegan ingredients, but they are enclosed by a non-vegan capsule or gel cap. To include these in a vegan diet, open the capsule or pierce the gel cap, and ingest contents directly or by adding them to smoothies, food, or drink, and dispose of the empty capsule.

Rejuveniix™

---

Vináli™

Optimal-M™

---

Biopro-Q™

## Gluten-Free

ALL products within the ARIIX brands are gluten-free. While the Optimals contain wheatgrass, a wheat-based product, the specific source we use has not yet developed the sprout that contains gluten. Independent testing by ELISA Technologies, Inc. has verified that the Optimals are free of any gluten contaminants.

---

## Homeopathic

Slenderiix is a homeopathic product. It contains Thyroidinum which is a remedy prepared out of a sheep thyroid gland. In many cases, due to the nature of the homeopathic process, vegans feel comfortable including Slenderiix in their diet.

The homeopathic process consists of diluting and agitating ingredients to the point that all that remains is their "vital energy." At commonly used dilutions for homeopathic products, no molecules of the original material are likely to remain.

---

## NOT Vegan Approved

Optimal-V™ - Contains vitamin D sourced from sheep's wool lanolin

---

Magnical-D™ - Contains vitamin D sourced from sheep's wool lanolin

---

Omega-Q™ - Contains omega-3 fatty acids sourced from fish oil
