

PEPTIDE PLUS MOISTURIZER ANTI-AGING COMPLEX

NUCERITY PURE PEPTIDE PLUS MOISTURIZER is an amazing anti-aging complex that delivers instant hydration to help visibly smooth and enhance skin tone and reduce the look of fine lines and other visible signs of aging. Luxurious natural emollients effectively enrich aging skin and help rebuild the skin's moisture content.

An ultra-sheer, oil-free, fragrance-free formula that absorbs quickly for visibly smoother, more radiant skin, Peptide Plus Moisturizer provides the perfect foundational piece to your daily skin care regimen, both morning and night.

SUPERIOR INGREDIENTS TO REVITALIZE YOUR SKIN

PEPTIDES — These amino acids combat the crepe-like appearance of aging skin by hydrating the skin, while increasing firmness.

SHEA BUTTER — Shea butter is an effective moisturizer that contains healthy lipids, which assist in skin elasticity and protect the skin from harmful environmental damage.

HYALURONIC ACID — Naturally present in the human body, this is a vital water-maintaining element that plumps and visibly firms the skin.

ALOE VERA — This natural plant extract helps facilitate natural exfoliation and soothes skin.

VITAMIN E — This powerful nutrient helps with visible damage from environmental factors that cause skin dryness, fine lines and wrinkles.

INSTRUCTIONS FOR USE

After washing and cleansing your face, apply a generous amount of Peptide Plus Moisturizer to your skin. Use enough to cover your entire face, neck and chest. It is perfect for use under makeup.
